

GUIDED TOURS

To get the most out of your experience visiting Tiergarten Nürnberg book one of our guided tours. Our zoo is set in an extraordinary and unique landscape. By taking a walk through the large, densely wooded park with one of our guides you can listen to curious facts and lovely stories about our animals. And you're sure to see all the best spots!

Watch dolphins and sea lions swim and play in the open at the Dolphin Lagoon. Explore life in the Amazon, complete with rainfall periods, at the Manatee House. Go to the Blue Saloon with its vast panorama windows and experience the fascinating underwater world of both manatees and dolphins.

On your walk you'll discover unique open-air enclosures that were skilfully fitted into the red sandstone rock face housing bears, lions, tigers and wolves. Children will love the Kinderzoo, where they can pet animals and discover a lot more...

With so much to see and do, a visit to the Tiergarten Nürnberg is always a special and unique experience close to nature. Our guided tours make a great incentive for business partners and employees. Or treat your family and friends to a great experience.

We offer a GUIDED TOUR with more detailed information about our animals and the Tiergarten Nürnberg.
